### **Accreditation success**

The JFIMS Radiation Calibration Service (RCS) facility at Deeside has reached another milestone. The RCS has been operating under a quality system accredited to BS EN ISO 9001:2000 since it has opened. The quality systems and operational practices have now been further assessed by UKAS, and after the initial audit the RCS has been granted accreditation to ISO/IEC 17025 and assigned the calibration laboratory number 4382. Alan Lewis, JFIMS Managing Director said. “We have set up the RCS from scratch and this is a magnificent achievement and confirms the high quality and the fast turn-round times our customers are experiencing. I would like to thank all members of staff involved in this successful outcome. This success would not have been achievable without their high quality skills and professionalism.”
